Sandi Kurnia_ Technical Test
Document Setup

- **Mobile Testing (Android)**

  For UI Automation (Android), I'm using Java Programming Language and Cucumber Framework, Folder : Android_technicalTest_Sandi Kurnia.
  1. Tools : Intellij IDEA CE, Appium Inspector
  2. Framework : Selenium, Cucumber and Appium
  3. Emulator : Android Studio
     - Device : Pixel 3
     - Platform Name : Android
     - Platform Version :10
  4. Report : Cucumber Extent-report

- **API**

  For API Automation, I'm using Java Programming Language, Folder : API_TechnicalTest_SandiKurnia.
  1. Tools : Intellij IDEA CE
  2. Framework : Rest Assured
  3. File Directory JSON schema : **Target > classes > jsonSchema.json**

- I also record my test and create report if it can't run on other platforms with the name
  1. QuestionNumber1_AndroidTesting
  2. QuestionNumber2_API
  3. QuestionNumber3_API
  4. Extent report : extentReport_Cucumber_MobileTesting(Android)_SandiKurnia.pdf
